Current computers are way past their lifetime and need replaced. They NEED replaced prior to losing data or files. They currently do not have any cameras or microphones to video conference with their clients.

NOTE** The HP OfficeJet 250 All-In-One portable printer's are out of stock in most places. Amazon (via Adorama) only has 18 left as of 5:15PM on 06-11-2020. CDWG advises that they will get new stock in August but the waiting list is already over 1,000 customers (\$334.99).

NOTE** Equipment or model numbers may change based on availability, etc.jb
