

TRAIL'S END YOUTH CAMP CABIN CAPACITY

According to ATCP 78.21 WI Admin. Code, there must be a minimum of 400 cubic feet for children over 12 years of age and 200 cubic feet for 12 and under. There also must be at least 3 feet horizontally between bunks, at least 6 feet horizontally between the heads of sleepers, and 2.5 feet of head space above the top mattress. Cabins and have been measured and maximum capacity is as follows:

Birch	Cabin	Porch	
Cubic Feet	3422.48	1189.57

Maximum Capacity 12 and under	12	N/A	
TOTAL CAPACITY	Cabin	Porch	
Maximum Capacity over 12	69	14	83
Maximum Capacity 12 and under	102	27	129

There can be a mixed number of children above and under 12 but there must be enough cubic feet per child.

Please call if you need help determining how many can be in each cabin.

The bunks are placed for maximum capacity.

It is recommended that chaperones and adults stay in the porch. If space is an issue, children can stay on the porch with the adults & chaperones as long as the cubic feet requirements are met. Both capacities for over 12 and 12 and under are listed.

Please DO NOT move bunks. There are separation requirements that must be met. Follow the bunk layout posted in the cabins.

**DO NOT
MOVE
BUNKS!**
